Rasheed Ishola Ramon

Software Engineer · Full-stack · React, Next.js, React Native, Node.js

Lagos, Nigeria · +234 816 756 2989 · ramonrash2@gmail.com · linkedin.com/in/razzy-dev · github.com/razdacoder

SUMMARY

Full-stack software engineer with 4+ years of experience building web apps, mobile apps and the services behind them, across fintech, logistics and AI-powered products. Works mostly in React, Next.js, TypeScript and React Native on the front end, and Node.js, Python and PostgreSQL on the back end. Strong at integrating APIs, building component libraries and making products fast. Comfortable owning features end to end in fast-moving, remote-first teams.

EXPERIENCE

Phlip Tech Labs · Full Stack Developer — Remote

- Built responsive, SEO-optimized web applications with Next.js and TypeScript for multiple clients, improving performance and driving measurable gains in user retention.
- Developed cross-platform React Native mobile apps for iOS and Android for multiple clients, cutting time-to-market by 40% through a reusable component architecture shared across web and mobile.
- Refactored backend logic and improved API performance on a loan management platform, boosting reliability and enabling smoother feature rollouts.
- Worked directly with clients across industries, adapting quickly to their requirements and delivering on time across web and mobile.

Inkriv · Frontend Engineer — Remote

- Built and maintained frontend features for Inkriv, an AI-powered writing and research platform that adapts to each user's voice and style, used by writers, researchers and professionals.
- Engineered accessible, pixel-perfect interfaces in React and TypeScript, translating Figma designs into scalable component libraries used across the product.
- Worked with product and design through the full feature lifecycle, from design review to production rollout, keeping the experience consistent across browsers.

Voltaa Mobility · Software Engineer, Contract — Remote

- Worked mainly on the backend, building and maintaining the Node.js services behind Voltaa's mobility platform: ride operations, user management and core business logic.
- Designed and optimized RESTful APIs used by the web and mobile clients, improving reliability and response times under growing load.
- Contributed to DevOps infrastructure with Docker Compose, Traefik and CI/CD pipelines, improving deployment stability and release speed.
- Added observability with OpenTelemetry, enabling better monitoring and faster incident resolution across the platform.

Parcels Mart Solutions · Frontend Developer, Contract — Remote

- Built intuitive, responsive UIs for a logistics platform using Next.js and Tailwind CSS, reducing bounce rates by 25%.
- Consumed RESTful APIs and GraphQL endpoints to enable real-time shipment tracking and dynamic order management.
- Improved frontend performance with code splitting, lazy loading and asset optimization, achieving 30% faster page loads.
- Implemented design-system components to keep the platform consistent, speeding up new feature delivery by 40%.

The Federal Polytechnic, Ilaro · Full Stack Developer — Ogun, NG

- Built a Django-based examination timetabling system that automated schedule generation, reduced conflicts by 50% and improved exam administration efficiency by 40%.
- Developed a distribution and allocation system that automated hall assignment and seating for students across examinations, removing manual bottlenecks institution-wide.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3 / SASS, Python, SQL
Frameworks & Libraries	React.js, Next.js, React Native (Expo), Zustand, Redux, Tailwind CSS, Node.js, Express.js, FastAPI, Django
Build Tools	Vite, Webpack, Rollup, Bun
APIs & Integration	RESTful APIs, GraphQL, React Query, Axios
Design & UX	Figma, Storybook, Responsive Design, Accessibility (WCAG), Design Systems
DevOps & Tooling	Git, GitHub, Docker, Docker Compose, CI/CD, OpenTelemetry, Cloudflare
Databases	PostgreSQL, MongoDB, Drizzle ORM, SQLAlchemy

EDUCATION & CERTIFICATIONS

Higher National Diploma, Computer Science · The Federal Polytechnic, Ilaro · 2023

Introduction to Front-end Development with ReactJS · Coursera

Programming for Everybody (Python) · Coursera
